- † Current Employer: **FINSTACK SOLUTIONS PVT LTD** [July'2022 – Present]
- † Designation:
 - **Software Engineer (July'2022 – Present)**
EximBills (Trade Finance Team)
Indian Bank(Head Office)

PROJECT PROFILES:

PROJECT #1

Project : Eximbills EE & CE Application

Parent Company : FINSTACK SOLUTIONS PVT LTD.
Designation : Software Engineer.
Client Company : INDIAN BANK
Environment : EximBills, Oracle Weblogic, SQL Developer
Tools & Utilities : EximBills Utility Tool (custom development for Trade Finance)

Project Description :

Exim bills Enterprise and Customer Portal are Trade Finance applications designed for major bank - Indian Bank. These applications facilitate the processing of letters of credit, export/import bill processing, bank guarantees, and remittances. The system ensures seamless banking transactions and secure data processing.

- Engineered seamless integration between Eximbill Enterprise and Customer Portal to enhance transaction efficiency.
- Optimized SQL queries for better data retrieval performance
- Deployed applications on WebLogic to ensure high availability.

Roles and Responsibilities:

- Developed and maintained trade finance applications (EximBills) to support banking operations related to inland/foreign trade, letters of credit, export/import bill processing, bank guarantees, and remittances.
- Designed and implemented responsive and interactive UI screens using Angular, JavaScript, HTML, and CSS for smooth user interaction and data input.
 - Enhanced existing modules built in JSP by integrating Angular-based components, ensuring better performance and maintainability.
 - Deployed and managed applications using Oracle WebLogic Server, ensuring stable delivery across development and UAT environments.
 - Developed dynamic advice letters, bank reports, and dashboards using Eclipse BIRT (Business Intelligence and Reporting Tools), streamlining regulatory and customer communications.
 - Created and optimized complex SQL queries using SQL Developer to support backend functionality and generate business-critical reports.
- Acted as a liaison between clients and the development team, translating business requirements into technical solutions.
 - Provided production support and resolved critical bugs, ensuring uninterrupted operations in a time-sensitive banking environment.
- Contributed to code reviews, documentation, and unit testing, maintaining high standards of code quality and regulatory compliance.
 - Collaborated closely with cross-functional teams including middleware, CBS, and infrastructure teams to ensure successful end-to-end delivery.

EDUCATIONAL QUALIFICATIONS:
